DETAILED ACTION

This office action is in response to Applicant's Request for Continued Examination filed 12/21/09. Claims 1-6 are pending with claims 1 and 5 in independent form.

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 12/21/09 has been entered.

Priority

This Application is a National Stage Application of PCT/JP04/18497 filed 12/10/04, which claims priority to Foreign Application JP 2003-414833.

Allowable Subject Matter

1. Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or fairly suggest to one of ordinary skill in the art, in conjunction with all the other limitations of the claims:

With respect to claims 1 and 5 and all their dependencies:

- An information processing device and method for use in an information processing system that communicates with a point managing device to manage accumulation and use of a point that is usable as an exchange value exchangeable with a predetermined product for each point ID information set for a user and a mobile terminal that stores electronic money and has an electronic money processing function to execute a predetermined command to add/subtract the stored amount of money and is identifiable with an electronic money function ID in association with the electronic money processing function where the information processing system stores an association between the point ID information and the electronic money function ID information where a command is generated to redeem a received number of points for electronic money at a predetermined redeeming rate and adding the electronic money obtained by the redeeming and transmitting the command to the mobile terminal identified with the electronic money function ID information associated with the retrieved point ID information

The prior art of record fails to provide sufficient teaching or motivation to one of ordinary skill in the art to provide the additionally recited features of these claims in the combinations as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art teaches Electronic Money and/or Point Supplying Systems (See Ito et al. US 6,039,250 A; Kitagawa et al. US 6,032,857 A; Yoshizawa US 20010014869 A1; Aikawa et al. US 7,360,091 B2; Fukushima et al. US 2003/0018577 A1; Inoue et al.
